

NeuroJunior Allied Health exists to empower children and young people with a neurological or developmental condition, and their families, to live life full of choice, inclusion and new possibilities.

We're on your team

We believe our clients are the most important members of the therapy team

- Our passion is helping clients reach their goals
 - We listen – our client's opinion matters
- We communicate clearly and work together to achieve the best possible results
 - We respect diversity and work with people from all backgrounds
 - We are caring and inclusive of family and support people

We innovate

We never give up – we will keep looking for new ways to reach your goals

- We keep up to date with the latest research and technology
- We embrace a flexible approach to therapy
- We provide therapy where it is most needed – clinic, home or community
- We are dedicated to removing obstacles to independence

We are enthusiastic

Positive thoughts can lead to positive change – believe & achieve!

- We're passionate about improving people's lives
- We are friendly and make therapy fun
 - We love celebrating our client's success

We expand horizons

We take a long-term view of a client's needs to develop a healthy & active future

- We challenge and support people to discover new possibilities
- We strive to develop a more positive future
 - We look beyond the here and now, providing support for long-term goals
